

Antisemitism: Its History and Causes (Classic Reprint)

Portions of this book which at various times appeared in the newspapers and periodicals received the honor of being noticed and discussed. This has induced me to write the few lines that follow. I have been charged by some with being an antisemite by others, with exhibiting too great bias in defending the Jews, and my writings have been judged either from the antisemitic or the philosemitic standpoint. This is wrong, for I am neither an antisemite nor a philosemite; it has been my intention to write neither an apology nor a diatribe but an impartial study in history and sociology. I do not approve of antisemitism; it is a narrow, one-sided view, still I have sought to account for it. It was not born without cause, I have searched for its causes. Whether I have succeeded in discovering them, it is for the reader to decide. An opinion as general as antisemitism, which has flourished in all countries and in all ages, before and after the Christian era, at Alexandria, Rome, and Antiochia, in Arabia, and in Persia, in mediaeval and in modern Europe, in a word, in all parts of the world wherever there are or have been Jews, such an opinion, it has seemed to me, could not spring from a mere whim or fancy, but must be the effect of deep and serious causes.
