

A History of Greek and Roman Classical (Classic Reprint)

Having to teach the class of ancient literature at the University of Notre-Dame, I in vain looked for a text-book for my pupils and for myself, and could not find any thing which would answer either my purpose, or the programme, such as I had conceived it. I found, among the books composing the classical department of the library, two volumes, in octavo, by K. W. Browne, on Greek and Roman classical literature. This work, which is deserving of much praise, was too extensive, and not systematic enough, in order to be given as a text-book. The Classical Dictionary of Anthon, and the one of Lempriere, both works of much erudition, would not answer my purpose either. (Typographical errors above are due to OCR software and do not occur in the book.)
